PROFESSIONAL SUMMARY

IT professional with 2+ years of customer-facing retail and sales experience combined with hands-on knowledge of HTML, CSS, JavaScript, Git, Python, and core programming concepts. Currently pursuing a Bachelor of Computer Applications (BCA) while actively building technical projects and developing problem-solving skills through Java and Data Structures. Proven ability to exceed sales targets, communicate effectively, learn quickly, and adapt to fast-paced environments. Seeking an entry-level Software Developer, Frontend Developer, or Technical Support role where strong customer focus and technical aptitude can deliver immediate value.

TECHNICAL SKILLS

- **Programming Language:** Java, Python (Basic), C
- **Front-End Technologies:** HTML5, CSS3, JavaScript (Basics)
- **Operating Systems:** Linux (Ubuntu – Basics), Windows
- **Core Concepts:** Data Structures (Basics), OOP Concepts
- **Tools:** VS Code, MS Office, POS Systems, Git (Basics)

PROFESSIONAL EXPERIENCE

Sales Executive | Puma India Ltd – Retail Store | Bangalore

Jan 2025 – May 2026

- Consistently exceeded monthly sales targets, achieving approximately 85% of store revenue through proactive customer engagement and upselling strategies.
- Delivered personalized product recommendations that increased customer satisfaction and repeat purchases.
- Assisted in onboarding and training new team members on sales techniques and product knowledge.
- Recognized for maintaining excellent customer service standards in a fast-paced retail environment

Sales Associate | Local Pharmacy | Banarhat

Sept 2021 – Jan 2023

- Managed end-to-end daily retail operations, including inventory management, billing support, and customer consultation in a fast-paced healthcare retail environment.
- Improved repeat customer visits and loyalty through consistent, trust-based service and personalized product recommendations suited to individual customer needs.

PROJECTS

Student Management System | C Language

- Developed a console-based Student Management System in C implementing CRUD operations using file handling.

Personal Portfolio Website | HTML5, CSS3

- Designed and developed a fully responsive static portfolio website showcasing personal skills, projects, and contact information using semantic HTML and CSS layout techniques.
